

THE LEADING CURRENCY FOR DIGITAL PAYMENTS

**VERONUM**

# Introduction

## What

Founded in 2024, Veronum is the leading cryptocurrency for digital payments. Our token is the engine of our user-friendly, decentralized ecosystem that allows you to make daily crypto transactions with just one click.

## Consumer demographics

We attract young minds, adventurers and millennials seeking new experiences. Gen Z represents 30% of our target audience, and in three years time will represent an estimated 35-40% of our user base. We have also observed an exponential growth in our Gen X customers within the past year.

## Innovation

Over the next three years, our company aims to grow as an innovation hub. We are dedicating all resources to coming up with new ideas, business lines and startups, as well as creating interconnected products, websites and applications that maximize our profits and simultaneously reduce operating costs. Our projects are all handled under the same ecosystem, under a unified vision. As we integrate Veronum into our multi-brand ecosystem, it will become the standard cryptocurrency for real-world purchases.

## Why

We implemented Veronum to maximize our scalability and profitability in the near and far future. Our model allows us to centralize our technology, leverage resources and reduce management and operating costs, encouraging our global expansion. Everything flows through our technologically robust ecosystem, designed to connect and automate the processes of our startups.

## GAP

The surprise concept, the basis behind our startups. By making the user's decision for them, we eliminate the stress and confusion that comes with planning and organizing through multiple platforms. The surprise concept is far more efficient, secure and exciting than what's currently on the market.

## How

The Veronum ecosystem avoids stagnation by creating brands that are flexible and adaptable in several different markets. The brands that make up our ecosystem span the travel, restaurant, gift card, nightlife and leisure industries. Veronum is the engine that supports the entire operation.

## Opportunity

Veronum is a great opportunity to create an identity, present our goals and introduce what we can offer to users in terms of value. As we continue to establish the brand as a positive presence in the industry, we solidify our brand identity and customer loyalty.

## What's Veronum ?

Veronum is the leading currency of digital payments Built on Cardano and universally adoptable through multi-brand plat-forms, it provides a high utility layer to our ecosystem while act-ing as a reward system for our customers.

## Why develop Veronum?

While Veronum started as an innovative marketing tool, it wasn't long before we realized that creating a digital currency could be much more than that. Veronum supports our verticals, while our verticals encourage a constant flow of our tokens via their distinct real-world use cases. By directly connecting all of our lines of business, we recognized the huge potential Veronum had to encourage the mass adoption of cryptocurrency in the real world.

# What's behind Veronum?

Veronum, the leading currency for digital payments.

## VER Fly

The matrix, a startup founded in 2017 offering Surprise trips. Currently, the company's gross profit is around € 5,000,000. It operates in Spain, France, Italy, Portugal, Germany, Austria and Switzerland.

Decentralized token.

## VER Eat

It transforms dining out with friends and family through surprise gastronomic experiences.

## VER In

Investment Fund focused on Crypto and Startup projects.

## Swap

An integration in our Wallet where users can exchange their tokens.

## NFT Platform

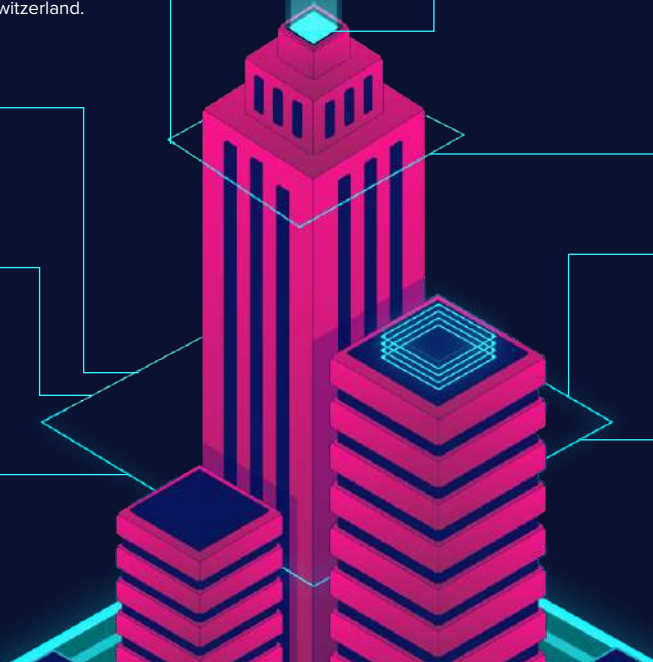

A Marketplace for buying and selling NFTs based on the Cardano Blockchain.

7777 Unique NFTs, next-generation travel leaders. Welcome to the most exclusive worldwide club.

## VER Pay

Our own Wallet with the ability to receive, send and exchange tokens, together with the possibility of staking and accessing our unique Marketplace and NFT platform.

# Use Case

Use Veronum to seamlessly make daily, real-world purchases in digital currencies. Pay, send, receive, store and exchange with just one click.

## How to acquire Veronum

The user can acquire VRN via our exchanges or through special rewards. The more our users engage and interact, the more they can earn.

## Premium partners

Thanks to the real-world use of Veronum, users will be able to buy products from our global premium partners. These can include hotels and restaurants, tickets for performances or recreational activities.

## VER Pay

VER Pay is a payment platform that uses blockchain technology to bring cryptocurrency to your daily, real-world purchases. Serving as both a digital wallet and a payment gateway, individuals and businesses can send, receive and pay with VRN and ADA in just one click. Our intuitive application on iOS and Google Play makes the transition to crypto instant, easy and intelligent.

## Veronum Use

Veronum is the leading currency for digital payments. The user can use VRN to pay for their hotels, restaurants and leisure activities. Everything is connected to our app, VER Pay, to make the payment process seamless.

## Veronum Marketplace

Pay with Veronum on our platform marketplace and with our global premium partners. Get special discounts and offers only available by using our coin.

## NFT Platform

Online marketplace for non-fungible tokens, where users can buy, sell and exchange their digital assets.

## Veronum Club

The user will earn rewards for every purchase made on our platforms or those of our global partners. Rewards can be exchanged for VRN.

## Veronum Swap

Our app, VER Pay, includes a **Swap** integration that allows users to easily exchange digital currencies into VRN. Users will stimulate the use of our coin, thanks to our low fees and exchange rate policy.

## Royal Hawk Club

A revolutionary collection of 7,777 NFTs focused on use in the real world. Combining technology, style and travel, each NFT will grant users access to exclusive parties and events, special collections, airdrops and much more.

# Roadmap

Will be constantly updated with the company's future actions.

## 1st Stage

### Q1 2025

Pre-Sale: Completion of the three-round pre-sale ahead of the initial coin offering.

Native Token Creation: Launch of Veronum, the utility token on the Solana blockchain.

Audit: Third-party security audit of Veronum's token code.

VER In.vc Investment Equity Fund: Launch of the fund supporting sustainable decentralized tech solutions.

VER Pay Beta: Release of the beta version of the payment application.

Royal Hawk Club: Introduction of the NFT project.

Presale Token Distribution: Distribution of VRN tokens to pre-sale investors.

Initial Coin Offering (ICO): Launch of the public token sale.

### Q2 2025

ICO Token Distribution: Distribution of VERONUM tokens to ICO participants.

Listing on CoinMarketCap and CoinGecko: VERONUM gets listed on major price-tracking platforms.

Exchanges Submissions: Applications for VERONUM to be listed on top-tier cryptocurrency exchanges.

Public Launch: VERONUM officially becomes available to the public.

VERONUM Staking: Users can stake VERONUM and earn rewards through the VerPay app.

VERONUM Swap: SOL to VRN token swap feature goes live on VER Pay.

SOL Staking on VerPay: Stake SOL and earn rewards directly in the VerPay app.

### Q3 2025

Token Integration on Platforms: VERONUM becomes usable for purchasing real-world products via VER Fly and VER Eat.

Buy SOL with Card: Option to purchase SOL using credit/debit cards in over 10 currencies.

New Currencies Support: Expansion to support EUR, USD, GBP, AUD, CAD, CHF, DKK, HKD, JPY, NOK, NZD, SGD, and ZAR.

## 2nd Stage

### Q4 2025

Production Staking Pool

Testing Staking Pool

Launch Staking Pool

Launch Multichain Bridge on Ethereum

Launch a cross-chain Swap system

### Q1 2026

Subnet Payment Gateway

Launch Payment Gateway

Instant payments on VER Pay

Secure and instantaneous transactions on our wallet, in just one click

VER Pay Connect (browser extension/integration for other platforms)

Payment gateway integration for partners

As our partners integrate our payment gateway, use VER Pay to buy any product or service, from a coffee to a plane ticket.

Documentation and API for partners (completed)

Forget about long development processes with VER Pay. Simply incorporate our API to quickly start receiving payments.

Royal Hawk Club pre-launch

Follow the hype as we get closer and closer to the Royal Hawk Club's official launch.

VER Pay NFT viewer

NFT royalties

Fees with VERONUM

# Roadmap

Will be constantly updated with the company's future actions.

## 3rd Stage

Immersive (Digital Replaces Reality)

As decentralized finance becomes a common reality, the way we interact with technology transforms. The digital and the physical will merge together, seamlessly integrating our projects into the new world.

## 4th Stage

POF and DAO (Proof of Fees and Decentralized Autonomous Organization)

Users decide the future through collective voting, effectively removing central authority. A new tax system is introduced, where transaction fees are reinvested into benefits and services for the users.

## 5th Stage

VERONUM Society (Self-Government and Community Services)

Welcome to a decentralized and self-sustainable future, where all decision-making power is handed over to the users. Rather than a central authority, society is governed exclusively through decentralized technology. Direct democracy becomes the new reality.
